SKILLS

- Extensive experience as a React developer, proficient in core concepts including components, props, state, hooks, context, and JSX.
- Proficiency in advanced optimization techniques such as lazy loading and memoization to improve performance.
- Expertise in modern JavaScript syntax and features.
- Skilled in crafting modular and maintainable React components.

WORK EXPERIENCE

● Sr. Solution Engineer

Since September 2022 Deqode Solutions Pune, India

- Implemented new features and functionalities with React components, enhancing user experience continuously.
- Developed comprehensive Jest test suites, ensuring application robustness and reliability.
- Utilized Playwright for end-to-end test cases, contributing to seamless functionality and performance.
- Led projects in designing root-level component architecture, accelerating feature delivery.
- Demonstrated expertise in complex projects, aligning teams and delivering integrated solutions.
- Orchestrated onboarding flow with Auth0, utilizing Redux Saga for enhanced state management.
- Organized UI using React Strap for improved user interface.
- Mentored junior developers in flow and state management, and performance optimization.
- Assisted in task and time management for junior developers.
- Conducted code reviews, reducing technical debt by 40% through bug fixes.
- Monitored and improved front-end performance.
- Documented application changes to enhance user experience.
- Provided suggestions for a user-friendly interface meeting client needs.

● Front-end Web Developer

From October 2020 to September 2022 THIS IS! DMG Germany

- Created task lists aligned with application goals for efficient project management.
- Developed and implemented APIs and React concepts, enhancing UI responsiveness.
- Wrote application interface codes using JavaScript, adhering to React JS workflows.
- Maintained application internationalization with i18next.
- Utilized Formik library to design and implement complex forms, enhancing user interaction and data collection efficiency.
- Designed custom validation schemas with Yup, ensuring data accuracy and application robustness.
- Managed task prioritization to meet deadlines and deliver high-quality code.
- Collaborated with backend developers to integrate frontend components with RESTful APIs, ensuring optimal application performance.
- Engaged with German-based clients, including renowned car parts manufacturers and educational institutions.
- Developed webinar applications for automakers, facilitating effective communication and product promotion.
- Created a B2B application for a German tyre supplier, enhancing business operations and customer engagement.
- Produced 2D and 3D animations for higher education using Phaser JS, applying physics principles extensively.
- Contributed to product development and internal projects within the organization.

WORK EXPERIENCE

● Front-end Web Developer

From December 2019 to June 2020 Freelance Pune

- Worked independently on various web development projects during the final year of my degree.
- Designed and developed responsive websites for clients across diverse industries, ensuring optimal user experience and functionality.
- Utilized a range of technologies including HTML, CSS, JavaScript, and frameworks such as React.js to create dynamic and visually appealing interfaces.
- Collaborated closely with clients to understand their specific requirements and deliver tailored solutions that met their business objectives.
- Managed project timelines, communication, and deliverables effectively to ensure client satisfaction and project success.

SOME OF THE PROJECTS

INTUIT

- Senior Solution Engineer on a global tech platform for consumers and small businesses.
- Tackled complex challenges within a sophisticated architecture, utilizing ReactJS, Typescript, GraphQL, and various testing frameworks.
- Played a key role in resolving financial challenges for users.

Tech Stack: ReactJS, Typescript, CSS, Redux-Saga, GraphQL, il8next, LazyLoading, Jest, Playwright

SMA | Solar technology

- Led multiple projects, owning features and ensuring their production readiness.
- Utilized React, Material UI, and Redux, showcasing expertise in cutting-edge technologies and delivering high-quality results.

Tech Stack- ReactJS, CSS, Material UI, Formik, Axios, LazyLoading

Cornelsen Verlag

- Developed a website for 10th and 12th-grade students in collaboration with a team of two developers
- Utilized React, Phaser.js, and Material UI as the tech stack
- Took on the role of Feature Owner
- Implemented animations based on provided designs, with a strong emphasis on physics
- Successfully addressed challenges in debugging complex animation code

Tech Stack: PhaserJS, CSS, Material UI, Formik, il8next, LazyLoading

Continental AG

- Contributed to various projects for a tire brand, demonstrating expertise in React, Redux, and other key front-end technologies.
- Owned features and played a crucial role in project success.

Tech Stack: ReactJS, CSS, Material UI, Redux, Formik, Axios, il8next, LazyLoading
