SKILLS

A seasoned React developer with a deep understanding of core concepts (components, props, state, hooks, context, JSX) and expertise in optimizing performance with techniques like lazy loading and memoization. Proficient in modern JavaScript syntax and features, and skilled in structuring and styling React components with modularity and maintainability in mind using HTML and CSS.

WORK EXPERIENCE

Sr. Software engineer
Since January 2023 Persistent Systems Pune
Scaled React project structure for collaboration, owned code quality with Jest/Playwright testing, and delivered integrated solutions across teams. Expertise in React, Redux-Saga, and various testing frameworks.

Sr. Solution Engineer
From September 2022 to December 2022 Metapixel (Short contract) U.S.
Streamlined UI & secure onboarding for the US banking app, mentored juniors, and reduced technical debt by 40%. Proficient in React best practices and performance optimization.

Front-end web developer
From October 2020 to September 2022 THIS IS! DMG Germany
Led React development for diverse clients, creating responsive UIs, complex forms, and interactive animations. Expert in React workflows, API integration, state management, and internationalization. Promoted code quality through reviews and mentorship.
